

“We have everything we want with Springbrook.”

Working in small government typically means you wear several hats. For Jan Kowalski, this is no different. Her official title is Director of Finance, however, she is also; Business Tax Collector, Police Dept. Treasurer, and Recording Secretary for the volunteer fire department. Or as Jan puts it, “If there is a dollar sign in front of it, that’s my job.”

Organization -

Township of Pine, Pennsylvania
<https://www.twp.pine.pa.us/>

- User friendly
- Integration
- Customization

Solution

- Springbrook Cloud
- Financial Suite
- Business Tax
- Purchase Orders
- Accounts Receivable

Benefit

- Integrated financial system
- Increased productivity and time-saving

The Township of Pine, Pennsylvania has been operating with Springbrook Cloud products since 2015. Jan Kowalski has been with the Township for the last 15 years and previously was a private practice CPA in several states along the east coast. She describes success in her position as, “monetary efficiency and accurate budgeting.” This is a big reason why the Township went with Springbrook Cloud software. “I love that it’s cloud based and that we get the updates automatically. We always have the most up-to-date software.” Jan also appreciates how “user friendly” Springbrook is.

“I did an exhaustive study... Springbrook was the best option.”

Jan’s positive experience doesn’t end with being able to work with 3 different databases within the general ledger. Even the Townships’ Auditor loves it.

“Our auditor loves us!”

“I use the visual report interface, which I really love...” This year the Township’s auditor was even able to do their audit completely remotely. One of Jan’s favorite functions within Springbrook Software has been “the ease of reporting and ability to customize.” Creating these reports

“They listen more than any other software company I’ve ever dealt with!”

is part of the robust workflow approval process Jan has built for the Township. The Extended Budgeting tool has also been empowering for the Township. Jan is able assign budget tasks to each department head to input their individual budgets. This has streamlined the budget process immensely. Now department heads in Pine Township have ownership in their budgets based on prior information. With Springbrook, “the budget isn’t just a finance department function. It can be a whole team-wide function.” Ensuring efficiency, accuracy, and security of data is key to their success and something Jan relies heavily on Springbrook to help her do. Jan also relies on the support from Springbrook staff. She is confident the Township will have continued success with the help of Springbrook. “I want everybody in Pennsylvania to use Springbrook!”
