

# Springbrook Cloud

## Full Featured, Integrated, Cloud Financial Platform for Every Agency Need

### Meet Springbrook Cloud

Springbrook is the country’s leading cloud-based financial platform for local governments, water agencies, sewer and fire districts. With 35+ years of industry experience, Springbrook was the first local government focused software company to develop cloud solutions and serves nearly 1,100+ agencies across 35 states. We learn from customers and invest in innovation.

### A full featured cloud-based platform designed for every agency need

Finance

Payroll / HR

Utility Billing

Online Payments

Tax Collection

Fixed Assets

### The Right Solution For Accrual-Based Accounting.

Springbrook has platforms designed for small- to mid-size agencies with **populations from 300 up to 100,000.**

### Integrated. Cloud-Based. Secure.

Say goodbye to system upgrades and service packs: never depend on outdated software again. Our cloud-based platform also means reduced IT costs, total data security and accessibility from anywhere.

### Powerful and Easy to Use.

Powerful and intuitive features and functions enable users to ramp up and take full advantage of the platform quickly, while reducing their workloads.

**Springbrook is your new team member!**

“We’re not sure what we would’ve done without Springbrook Cloud.”

*David Schultz, Director of Finance for the City of Callaway.*

### Now featuring Tableau!

Springbrook brings Tableau, the industry’s best-in-class analytics tool available for local government agencies, right to your browser.

**Tableau is available free of charge** to all Springbrook cloud customers.

## On-Premise Challenges

### Requires Updating

Manual updates take time and resources to execute, schedule and plan around.

### Requires IT Staff

An on-premise instance requires people and time to maintain software and servers.

### Requires Back-Up Planning

Back-up management is an entirely different workstream, demanding additional time and resources.

### Requires Hardware

Procuring and maintaining servers requires additional budget if self hosted or through a 3rd-party.

### Increased System Vulnerabilities

Security infrastructure is difficult for cities to implement at a small scale.

## Step Up to the Cloud

### Reduced Cost

Our data center and staff replace the need for expensive on-premise equipment. Free up your IT staff to focus on other critical projects.

### Enhanced Data Security

Our servers and your data are protected by the highest level of security available. Confidential information can be deleted in a moment.

### Access Flexibility

As long as there's an Internet connection, your data, projects, workflows are all at your fingertips.

### Unlimited Scalability

Additional server storage and licenses are available at the click of a mouse. We manage all certifications.

### Better for the Environment

Moving to the Springbrook Cloud is environmentally friendly: as your computing needs fluctuate your server energy usage scales, reducing your carbon footprint.

### Built In Back-up & Recovery

Your products are always current and completely backed up. No more fire drills when an internal server goes down or becomes corrupted. **99.9% reliability.**

Support internal processes with pre-scheduled nightly FTP backups.

Join the nearly 1,100+ agencies that count on Springbrook to run their agencies
