## Springbrook Cirrus, A Fully Cloud Platform

Cirrus features a powerful, intuitive interface that requires less training and delivers faster access to critical features. The new platform frees up personnel to manage strategic issues and problem solving rather than navigating cumbersome ERP systems.

## Full Featured, Available Anywhere

Cirrus is a true multi-tenant cloud solution, fully accessible on any mobile device. Cirrus delivers the full functionality of Springbrook's industry leading on premises solution, providing easy adoption for existing users who migrate to the cloud, and simple on boarding for new users who are moving from less powerful solutions.

## Protection From Ransomware

61% of ransomware attacks occur in local government agencies, can you afford to risk losing your data? Cirrus features the highest level of security available, far exceeding what local servers can deliver.

## We Made It!

Springbrook Software is listed among **GovTech 100 in 2021**, a compendium of 100 companies focused on helping

state and local governments perform mission-critical work while serving their communities more effectively.

## Featuring Tableau!

### Industry's most powerful reporting tool

Tableau, the industry's best in class analytics tool for local government agencies is available for no charge to all Springbrook Cirrus customers.

## On-Premise Challenges

### Requires Updating

Manual updates take time and resources to execute, schedule and plan around.

### Requires IT Staff

An on-premise instance requires people and time to maintain software and servers.

### Requires Back-Up Planning

Back-up management is an entirely different workstream, demanding additional time and resources.

### Requires Hardware

Procuring and maintaining servers requires additional budget if self hosted or through a 3rd-party.

### Increased System Vulnerabilities

Security infrastructure is difficult for cities to implement at a small scale.

# SpringbrookCirrus

### Reduced Cost

Our data center and staff replace the need for expensive on-premise equipment. Free up your IT staff to focus on other critical projects.

### Enhanced Data Security

Our servers and your data are protected by the highest level of security available. Confidential information can be deleted in a moment.

### Access Flexibility

As long as there's an Internet connection, your data, projects, workflows are all at your fingertips.

### Unlimited Scalability

Storage and processing is scaled automatically. Your subscription covers all of the users at your organization – no need to add license for new users.

### Better for the Environment

Moving to the Springbrook Cirrus is environmentally friendly: as your computing needs fluctuate your server energy usage scales, reducing your carbon footprint.

### Built In Back-up & Recovery

Your products are always current and completely backed up. No more fire drills when an internal server goes down or becomes corrupted. **99.9% reliability.**

Support internal processes with pre-scheduled nightly FTP backups.

Join the nearly 1,100+ agencies that count on Springbrook to run their agencies
