

3/2 Webinar: Experts answers on \$200M cybersecurity grant

Have you heard about the \$200M Cybersecurity grant program?

Money will be issued by September 30, 2022...

Is your agency prepared to take advantage of this program?

The recently announced cybersecurity grant program will be distributing \$200 million to local government agencies specifically for cybersecurity initiatives. The awards will be issued through a competitive process, and the more information you have, the better your chances of receiving grant money.

Join the Springbrook Research Institute on March 2, 2022, for an exclusive interview with **Doug Robinson**, Executive Director of NASCIO. Doug will address the following important issues to make sure that you are fully prepared to apply for this important grant:

Overview of the grant

What can be expected on a state level

Guidance into applying

What the money can be spent on

How the money will be disbursed to states

More details and insights

Springbrook Software Releases New Government Budgeting Tool

The ERP Technology Provider says its new product integrates with other tools and can reduce budget management and development time by half. The company launches the platform as it settles in from its latest acquisition.

Springbrook Software, which sells ERP technology for local governments, has released a new Advanced Capital Budgeting and Planning platform. The move comes at a time of significant expansion for the Oregon-based company, which sells financial, human resources, billing and other software to public agencies. According to Springbrook, the new technology fully integrates with the company's cloud-based Cirrus financial platform. In touting the new product, Springbrook said that the Advanced Capital Budgeting and Planning software can reduce budget management and development time by half.

The Product Development team here at Springbrook is hard at work building new applications and features for you! Take a peek at what is coming your way and connect with the Product Management team for a design feedback session.
