RESIDENT FACING

Meet Springbrook's new, **automated way to plan and share council agendas, packets, and minutes**. Cirrus Meeting Management brings preparation, collaboration, and publishing into **one place**, so a full meeting packet comes together and goes out in a single step — and residents can see the record.

Enhance citizen engagement

Residents follow meetings, sign up to speak, and comment — their voice reaches council.

Real-time minutes

Capture discussions, motions, and votes instantly as the meeting unfolds.

Automated packet assembly

Assemble agendas and supporting materials into one packet, then distribute in a single step.

Real-time collaboration

Departments work in the same document together, at every stage of the process.

Meetings online

Approved agendas, minutes, and packets post straight to your public meeting site.

Effortless tracking

Monitor motions, votes, and follow-ups automatically.

“ I used to spend two full days before every council meeting just assembling and printing packets. Now it takes me under an hour. I reclaimed 3 to 4 days a month.

CITY CLERK, MID-SIZE CITY
